November 21,2007

I recently had some repair work made to two cracks in the foundation of my home.

I just wanted to let you know that the work was carried out in a very professional manner. One of the cracks was located so as to need to be dug out manually, and the two gentlemen who did this worked very hard and did a fine job.

The other one, at the side of the house, was reached with the small excavator and, again, the young man who did this work was very careful and did an excellent job.

Thank you,

Sheila Hall,
