

Dear Dan,

We have been very pleased with your responsiveness and level of service you [Akton injection] have provided us last Fall when we had to rebuild the french drainage system around the house. Your expertise and attention to detail in walking us through the steps convinced us in selecting your company above all others. And I am glad to say that we are very satisfied with the outcome, a dry "vide sanitaire" finally.

You and your team have managed to transform an annoying situation in hassle-free experience. You completed the project on time and on budget, a rare occurrence these days.

All the best,

Walid H.
